Firm offers locals a helping hand or two

A FIRM designed to de-stress local people by giving them an extra pair of hands has branched out to Stratford.

Midlands firm Your Wish Is My Command has proved so popular since its launch last year it is now expanding to South Warwickshire.

Anyone who wishes there were more hours in the day is invited to give the firm a call.

The brainchild of local businesswomen, Nicky Lucas and Stella Brookes, Your Wish Is My Command aims to make life easier for people of all ages who think they have too much to take care of.

The pair offer a confidential service which is tailor-made for each client.

Services range from running errands, such as collecting prescriptions and delivering packages to keeping an eye on a busy professional's apartment while they are out of town.

Other services include everything from sourcing childcare and booking appointments to party planning and gift shopping.

"Today's lifestyle can be incredibly demanding and people do get very stressed as a result," said Stella.

"We decided to create Your Wish Is My Command
